VET-MEDLINK-INTENSIVE

Proud to be working in Partnership with

WORK XP

You will need to show your commitment to a career in veterinary science with evidence of work experience. Find out what really counts and how to go about getting it. This is something you need to be doing now.

PERSONAL STATEMENT

A good personal statement can be the difference between an offer/interview and rejection. This session has the single goal of showing you how to write a personal statement that will increase your chances of winning a place at veterinary school. Our experts will share the *top five secrets* of personal statement success.

MULTIPLE MINI INTERVIEW

Our experts will show you actual past MMI questions and break them down for you. You'll then take that knowledge as you are guided through a series of real MMI stations.

WHAT DO THE VETERINARY SCHOOLS WANT?

Hear from Admissions deans from the UK and overseas to understand what veterinary schools are looking for in their student intake.

LIVING THE DREAM

Talk to veterinary students, who, just a short time ago, were feeling just like you. Find out what they encountered on their journey and how they succeeded.

CHEMISTRY A* MASTERCLASS

Chemistry is essential to your vet school application and this intensive session shows you how to reach for the A* grade. A veteran chief examiner will guide you through actual chemistry exam questions, step by step, explaining how to avoid mistakes that cost marks and how to answer to achieve maximum scores, leading to that all-important A*.

GET THIS ESSENTIAL EXTRA SESSION FOR ONLY £25
